

ChangeLab Solutions

Our mission is to create healthier communities for all through equitable laws and policies.

Who We Are

ChangeLab Solutions is a nonpartisan nonprofit organization that uses the tools of law and policy to advance health equity. We partner with communities across the nation to improve health and opportunity by changing harmful laws, policies, and systems. Our interdisciplinary team works with community organizations, governments, and local institutions to design and implement equitable and practical policy solutions to complex health challenges.

Our Work

We can help you achieve your health equity goals so that everyone in your community can achieve their full health potential.

WHY WE DO THIS WORK: Health Equity

At ChangeLab Solutions, we believe that the most powerful risk factors in health are laws and policies that have perpetuated racism, discrimination, and segregation throughout our nation's history. Using the tools of law and policy, we can undo the fundamental drivers of inequity and thereby increase health equity.

WHAT WE BRING: Expertise & Evidence

We share our knowledge of what is effective for advancing health-promoting policies. Our diverse team works across sectors and disciplines, bringing legal, policy, and planning expertise to inform our work. Our solutions in service of health and equity are grounded in evidence, legal precedent, and community-led change efforts. And our free online library offers legally sound policies with a proven track record of implementation.

HOW WE WORK: Collaboration & Partnership

We believe that complex problems are best solved through partnerships across multiple disciplines and sectors in order to maximize collective resources, apply mutual learning, and align actions to advance health equity. To help communities improve their health, we provide individualized services that complement and leverage community knowledge and strengths.

WHAT WE OFFER: Legal Know-How + Strategies That Make Policies Work

Our interdisciplinary team can create custom legal or policy research, analyses, case studies, or products tailored to your issue or community. Our trainings help communities build knowledge and skills to effect change, even after the trainings are over.
